

How to Update Winbird To A New Version

1. Save UPDATE to your computer
2. Right mouse START
3. Double click on UPDATE (that you saved)
4. WinZip will open
5. Click NEXT
6. Click NEXT (Choose Unzip or Install)
7. Click YES
8. Update will be saved in C:/unzipped Winbird
9. Click on UNZIP NOW
10. A window will open with the BIRD'S HEAD in the top left corner of screen
11. Right click on BIRD'S HEAD
12. Left click on COPY and minimize this window
13. Click on Finish WINZIP
14. Find your Winbird program on left side of screen
15. Left click on FOLDER so that it opens on the right side of screen
16. Left click on the BIRD'S HEAD
17. Move mouse cursor to a blank space on the right side of screen
18. Right MOUSE and select PASTE
19. A window will open and ask if you want to replace an older version with the new version
20. Click YES
21. Open Winbird and if all went well it will show the new version in the first Winbird Window.
